# WE CREATE **NEW** POSSIBILITIES

What can we do to further enhance the quality experience we offer as ELVIAL?

How can we ensure that our systems remain reliable throughout their entire lifespan?

NOW YOUR WINDOW  
HAS IDENTITY.

ELVIAL introduces its new tool that elevates the experience for the end user, the professional, and every link in the market chain.

Every aluminium system has an embedded QR code that “introduces” it.

Through this unique identifier, all system details are digitally recorded, instantly accessible and always available from any device, at any time.

ELVIAL  
**WINDOW.ID**

# BENEFITS FOR ALUMINIUM FABRICATORS

01

Identify every window in every project **with a simple scan**

- ✓ Save time
- ✓ Avoid mistakes or delays
- ✓ Better document and control subsequent work
- ✓ Create a digital file for each project

**Instantly obtain** the customer's installation approval signature

- ✓ Speed up processes
- ✓ Highlight your professionalism in after-sales support
- ✓ Minimize complaints or misunderstandings about what was installed
- ✓ Enhance your technical reputation

Immediate sending **of documents, technical certifications, brochures**

- ✓ Support customers who expect top-level service
- ✓ Reduce the need for printed material and physical file organization
- ✓ Be ready to meet future customer needs (e.g., energy audits)
- ✓ Adopt a modern & greener approach

**Build trustful relationships** with your customers

- ✓ Earn positive recommendations and increase the chance of repeat business
- ✓ Improve your market reputation with a technology-driven value proposition
- ✓ Differentiate yourself from the competition

# BENEFITS FOR HOMEOWNERS

# 02

# BENEFITS FOR PROJECT MANAGEMENT

# 03

## Increase the value of your home

- ✓ Boost your property's resale value: the new buyer has complete and comprehensive information about the windows of the house
- ✓ Have a documented digital file for technical certifications or inspections: e.g., energy upgrade, subsidies, insurance coverage
- ✓ Create a home with technologically advanced infrastructure – you have a “smart home.”

## Enjoy excellent and immediate support

- ✓ The aluminium fabricator has direct access to your profile data, avoiding delays
- ✓ You know with full transparency what has been installed and when. No information is ever lost
- ✓ Even years later, all details remain available, making any potential sale or technical documentation easier

## Scan and instantly identify each window

- ✓ No need to search: you know everything – type, certifications, dimensions, glazing type, mechanisms
- ✓ The fabricator knows your aluminium systems before even visiting your home
- ✓ No need for physical archiving – everything is available digitally

When project design goes beyond creativity, **ELVIAL WINDOW.ID** is here to transform the overall building **user experience**.

## Why include it in your specifications?

- ✓ The project is technically “locked” - no one can alter the type of systems specified.  
  
Strengthens the architect - client relationship and promotes a “user-centric” philosophy
- ✓ In project management, it's all about files, proof, and traceability. What has been installed in each room, with what glazing type, what thermal insulation, and what certification.  
  
Even maintenance becomes a simple task. With ELVIAL WINDOW.ID, everything is digital and organized, offering unmatched management benefits
- ✓ It's a modern facility management tool for hotels and serviced apartments - it enhances control and efficiency and offers speed in every intervention
- ✓ The new service is part of smart building specifications and is proof of “future readiness”
